### **DETAILED ACTION**

1. The following is Final Office Action in response to the amendment filed July 12, 20006. Independent claims 1, 14, 20, 28 and 29 have been amended. Claims 2, 7, 13 and 19 have been cancelled. Claims 1, 3-6, 8-12, 14-18 and 20-29 are pending in this application.

#### ***Response to Arguments***

2. Applicant's arguments regarding rejection under 35 U.S.C. 101 has been fully considered but they are not persuasive. Irrespective applicant's argument, the claimed invention as presented is still a pure manipulated of data. Repeatable manipulation data does not guaranteed of usefulness or practicality.

#### ***Claim Rejections - 35 USC § 101***

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

3. Claims 1, 3-6, 8-12, 14-18 and 20-29 are rejection under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

Per MPEP section 2106:

The subject matter to be statutory must claim a practical application i.e. the method as claimed must produces a useful, concrete and tangible result. See AT &T, 172 F.3d at 1358, 50 USPQ2d at 1452.

Regarding claims 1, 14, 20 and 28-29, applicant merely claims a first structure of categories and a second structure of categories without claiming a practical application for the first and second structure. Furthermore, it is an abstract idea of defining and identifying a hierarchy of categories in the database. "Defining a first structure of categories" and "defining a

second structure of categories” can be simply defining data in person’s mind to classify a data item. There is no physical process to generate a useful result.

***Conclusion***

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
